16-20 March 1998**

Agenda Item 3: Review Status and Outcome of ADSP JWG Transition Meeting

Summary Report of ADSP Working Group Meetings in Atlanta

Prepared by G. Anderson

SUMMARY

This working paper presents the drafts of the of the recently completed ADSP JWG & WG's A&B meeting reports held in Atlanta GA, USA 23 February-6 March, 1998.

1. Introduction

- 1.1 This working paper presents the draft Discussion Papers used in the closing sessions of the recently completed ADSP Working Groups.
- 1.2 Due to the size of the attachment to this paper, 250 pages, it has not been provided as a handout but is available in soft copy. Those persons desiring hard copy should make arrangements with the office staff separately.

2 Discussion

- 2.1 Items which should be of interest to the ATNP WG's include the completed "Guidance on Accommodation of FANS-1/A in an ATN SARPs Environment" (aka; Transition Document), and discussions of Security attached to the JWG report, new OR's for ADS Emergency Mode attached to the WG-A report, and amended/new OR's for D-FIS Services (D-ATIS & TAF) attached to the WG-B report.
- 2.2 This material is presented informally and should be considered as draft until formally received by the Secretary of the ATNP from the Secretary of the ADSP.

3 Recommendation

- 3.1 The WG-3 is invited to review the attached material in view of the affect on WG-3 activities.
